EMPYREAN is getting busy

On July 2-3, the EMPYREAN Project consortium had a successful plenary meeting in Madrid, hosted by NEC Corporation ! Great progress in architecture design and requirements analysis. Exciting as we lay the groundwork for the next phases. Kudos to the EMPYREAN team for their amazing contributions!

EMPYREAN - Events

EMPYREAN Project's and IDEKO Research Center's use case and objectives were presented in the IDEKO's stand on the BIEMH - Biental Internacional de Máquina - Herramienta 2024 (www.hpdc.org/2024), on June 2024, the Spain's leading industrial trade fair and an international leader in advanced manufacturing.

We attended the EUCEI Open Continuum Conference (eucloudedgeiot.eu/event/euceis-open-continuum-final-conference-registration-now-open/) on June 18, in Brussels, presenting EMPYREAN and participating in discussion panels.

This project has received funding from the European Union's Horizon Research & Innovation Action (RIA) programme under grant agreement No 101136024.

We reached Madeira for the Digital Transformation Week (mdtweek.digit-madeira.pt/) and participated in the "Cognitive Computing Continuum" panel. Fantastic clustering opportunity, insightful discussions on advancing challenges in edge-cloud resource orchestration!

We also took part in the NexusForum2024 Summit (<https://nexusforum.eu/>) on September 2024, in Brussels, making sure that everyone know what EMPYREAN is all about.

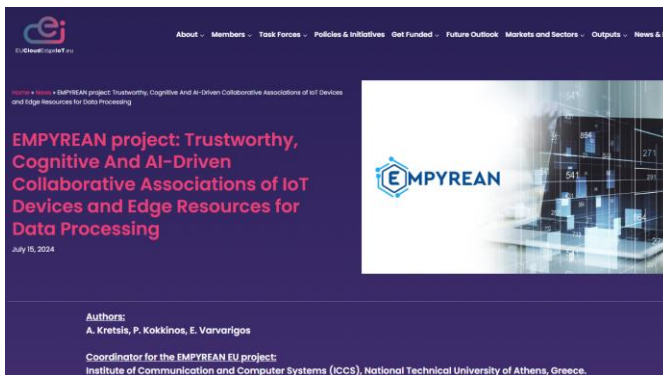

EMPYREAN - Articles & Conferences

EMPYREAN Project participated in the EU Track of the International Symposium on High-Performance Parallel and Distributed Computing - HPDC 2024 (www.hpdc.org/2024), in Pisa, on June 2024 presenting EMPYREAN's ideas and objectives, along with other EU projects.

An EMPYREAN article was presented in the eucloudedgeiot.eu: [eucloudedgeiot.eu: eucloudedgeiot.eu/empyrean-project](http://eucloudedgeiot.eu/empyrean-project)

EMPYREAN Project supports the 1st Special Session on Secure and Cognitive Continuum (SECON 2024), in conjunction with MobiSec 2024, Sapporo, Japan, December 17~19, 2024: www.manuscriptlink.com/society/kiisc/conference/mobise-c2024

This project has received funding from the European Union's Horizon Research & Innovation Action (RIA) programme under grant agreement No 101136024.
