## Vision Within Reach

## EMPYREAN Meetings

On 25-26 November 2025, the 6th Plenary Meeting of the EMPYREAN project took place in IDEKO Research Center, in Elgoibar. Two productive days bringing together all partners to review progress, align next steps, and strengthen collaboration. Partners shared updates on the technical developments and agreed on concrete actions to ensure the successful integration of the project components over the coming months.

On September 24th, in Athens, EMPYREAN hosted the first mid-term review. This meeting was a key milestone to present the technical progress achieved so far and the integration of developments within the EMPYREAN architecture to the Project Officer and assigned experts.

## EMPYREAN Events

EMPYREAN participated in the NexusForum.EU 2025 Summit, held on 5-6 November 2025 in Brussels, presenting project's innovations and activities, while engaging in discussions on AI, Cloud, and Sustainability in the context of Europe's Digital Sovereignty.

On September 24th, Prof. Ilseun You (Department of Information Security, Cryptology, and Mathematics, Kookmin University, South Korea) gave a talk titled "Securing 5G and Beyond Networks: PQC Migration Against Future Quantum Threats" in ICCS/NTUA premises, in Athens. Prof. You collaborates with EMPYREAN in the use case 5G-Enabled Vehicle-Assisted Services.

## EMPYREAN partners:

This project has received funding from the European Union's Horizon Research & Innovation Action (RIA) programme under grant agreement No 101136024.
